NEO

INTEGRATED HEALTHCARE TECHNOLOGY

Homepage Content & Layout Brief

Section-by-section homepage content, visual intent, CTA logic and acceptance criteria

Purpose
Practical working brief for NEO's design, webmaster, content and development teams.

Working document | 02 November 2026

1. Homepage objective

The homepage must answer four questions quickly: What is NEO? What does it focus on? What is its relationship with KHAYR? How can a visitor engage with NEO?

Primary message: Connecting Healthcare. Empowering Better Lives.

The page should feel editorial and premium, not like a dense catalogue. Each section should have one main message and one clear next action.

2. Homepage section order

Order	Section	Purpose	CTA
1	Hero	Identity and value proposition	Explore Our Solutions
2	Who We Are	Corporate introduction	About NEO
3	Our Business	Five strategic pillars	Discover Our Business
4	KHAYR	Flagship product and status	Explore KHAYR
5	Technology & Innovation	Technology principles	Explore Our Technology
6	Our Approach	Trust and responsible execution	Our Approach
7	Partnership	Invite collaboration	Partner With NEO
8	Closing CTA	Final conversion point	Contact NEO
9	Footer	Navigation and legal	Relevant links

3. Detailed copy and layout

Hero

Headline: “Connecting Healthcare. Empowering Better Lives.” Supporting copy: “We bring healthcare, technology and intelligent systems together to help create more connected, efficient and accessible healthcare experiences.” Primary CTA: Explore Our Solutions. Secondary CTA: Partner With NEO. Use a premium healthcare-technology visual.

Who We Are

Heading: “Technology with a Purpose. Innovation for Better Healthcare.” Copy: “NEO is an integrated healthcare technology company focused on developing digital platforms, management systems and connected solutions for the evolving healthcare ecosystem.” Use two columns on desktop and stack on mobile.

Our Business

Heading: “Five Strategic Pillars. One Connected Vision.” Show five consistent cards: Healthcare Management Systems; Digital Healthcare Platforms; Integration & Interoperability; Healthcare Intelligence & Automation; Healthcare Ecosystem & Connectivity. Each card has a short description and link.

Featured Product — KHAYR

Heading: “Meet KHAYR.” Copy: “KHAYR is NEO's flagship digital dental healthcare platform, being developed to bring clinical, administrative, financial and patient-management workflows into a more connected environment.” Show only approved product UI or clearly labelled concept UI. Place development-stage note near the CTA.

Technology & Innovation

Heading: “Building Technology Around Real Healthcare Needs.” Present integration, interoperability, responsible data management, scalable architecture and intelligent workflows.

Our Approach

Heading: “Responsible Innovation. Practical Execution.” Explain discovery, product validation, testing, privacy and security considerations. Link to Our Approach.

Partnership and closing

Heading: “Better Healthcare Is Built Together.” Invite healthcare providers, technology companies, institutions and strategic partners to start a conversation. Closing CTA: “Let's Build a More Connected Healthcare Future.” Button: Contact NEO.

Footer

Use a dark footer with NEO descriptor, concise statement, navigation, approved contact information and legal links.

4. Layout and interaction rules

• Hero headline should be two or three lines on desktop.

• Use generous vertical spacing and consistent content width.

• One dominant CTA per section.

• Use subtle transitions only when they improve comprehension.

• Ensure accessible contrast, keyboard focus and descriptive link labels.

• Cards must remain readable on mobile.

• No autoplay sound or distracting carousel for essential content.

5. Content and claim governance

Do not claim KHAYR is commercially live, SATUSEHAT integration is operational, or NEO has global operations, customers, certifications or partnerships unless verified.

All product screenshots, partner logos, customer names, statistics and testimonials require explicit internal approval and documentary support.

6. Acceptance checklist

• Visitor identifies NEO in the first screen.

• Five pillars match the corporate profile.

• KHAYR development status is clear.

• Clear routes to Contact and Partnerships.

• All sections adapt to mobile.

• Images have alt text, licensing and optimised sizes.

• Content, accessibility, performance and links are checked.
